WORK EXPERIENCE

Forma.ai

Customer Operations Analyst

Pune, Maharashtra

Jan-2024 – Apr-2025

- Automated reporting workflows using VBA/macros, reducing manual effort by **80%** and workflow size by **~60%**
- Built a **one-click reporting system**, cutting execution time by **~75%** through end-to-end scripting.
- Developed **scalable data pipelines** for high-volume business units (Stryker Canada), ensuring **100% accuracy** and timely delivery.

TECHNICAL PROJECTS

FormCraft - No Code Custom Form Builder

Personal project

- Developed a production-ready no-code drag-and-drop form builder using React, Zustand, Tailwind/Shaden with dynamic fields, conditional logic, and polished UX.
- Implemented secure JWT authentication with RBAC, anonymous public submissions, Razorpay payments for premium features, and automated Node-Cron cleanup.
- Architected using MongoDB + Express.js, ensuring production-level reliability and maintainability.

EduFlow - LMS

Personal project

- Developing a full-stack Learning Management System using React, Node.js/Express, PostgreSQL + Prisma, with JWT auth and role-based dashboards.
- Implemented features including auto-graded quizzes, Razorpay payments, analytics dashboards, and PDF certificate generation.
- Designed REST APIs for enrollment, progress tracking, and email notifications.

Quiky - Quick Commerce Platform

Personal project

- Developed backend architecture for a quick-commerce platform supporting 10 min deliveries via dark stores and smart rider assignment.
- Implemented REST APIs for browsing, cart/checkout, tracking, inventory CRUD & multi-role access.
- Built with Node.js/Express, PostgreSQL/Prisma, JWT Auth, and location-based order management.

EDUCATION

SRM Institute of Science and Technology

B. Tech – Electronics and Communication

Chennai, Tamil Nadu

June 2024 | CGPA: 9.17/10

- **Major Project: Design of Smart Eyewear MIMO Antenna for 5G** - Designed and simulated MIMO antenna in CST Studio Suite to improve 5G connectivity and signal diversity for AR smart glasses.
- **Leadership:** Served as **Joint Secretary** in the Directorate of Alumni Affairs, coordinating events and alumni engagement initiatives.

SKILLS

- Languages: JavaScript, Typescript, C++, SQL
- Frameworks/Libraries: React.js, Node.js, Express.js, Tailwind CSS, Zustand
- Databases: PostgreSQL, MongoDB, Prisma ORM, Mongoose
- Tools & Platforms: Git, GitHub, GSAP, VS Code, Docker, Postman, MS Excel (Advanced)
- Concepts: Data Structures & Algorithms (DSA), REST APIs, OOPs, System Design

LANGUAGES

- Hindi (Native)
- English (Fluent)
